Objective

My goal is to get a job doing what I love. Since I was 10 years old I've always loved programming. I want to work in a field that will challenge me every day, and give me many chances at personal growth.

I am have shown my proficiency in C++, Java, C, and C# in both the workplace and university setting. In addition to that, I have a passion for Python, Prolog, and Lisp-like languages. I am very good at picking up new skills, and take a great deal of pride in my work.
